## UNCORNERING VIOLENCE ACROSS OUR NATION LEARNINGS & IMPACT REPORT

### GUN VIOLENCE IN AMERICA IS AT AN ALL TIME HIGH

In an average year, gun violence in America kills 40,000 people, wounds twice as many, and has an economic consequence of \$557 billion to our nation (Everytown). **The time has come to Uncorner our nation.**

"Community violence scares people out of participating in neighborhood activities, limits business growth and prosperity, strains education, justice, and medical systems; and slows community progress."

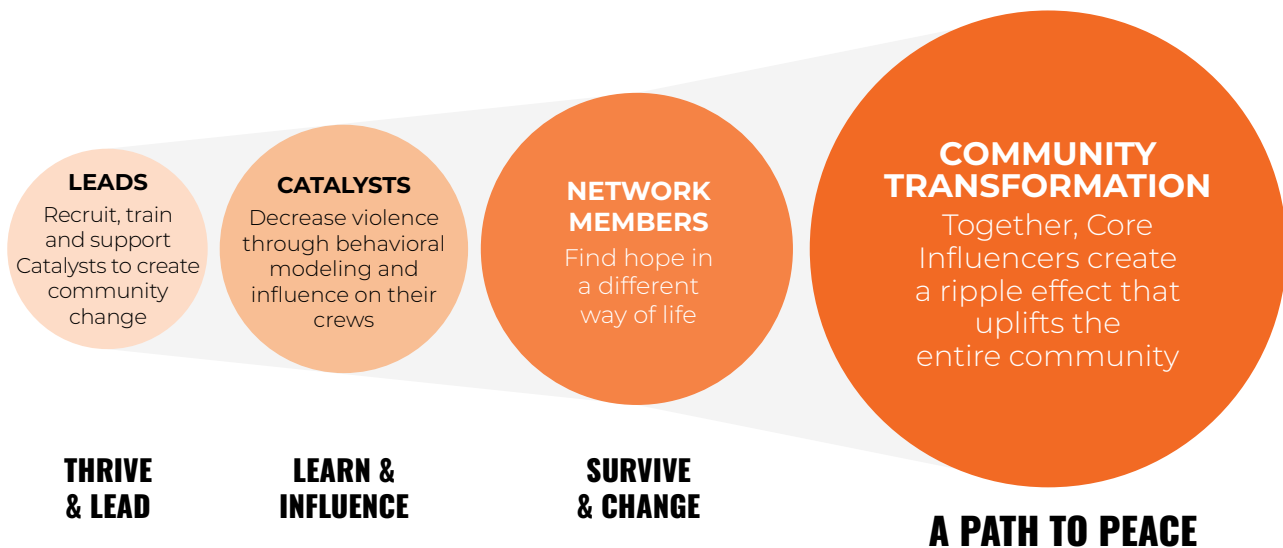

"Data reveals less than 1% of a city's populations are connected to over 50% of its shootings and homicides."

### A PROVEN MODEL FOR ENDING VIOLENCE

**The Uncornered model harnesses the power of Core Influencers at the heart of a community to create a thriving city from the inside out.** Our model is driven by data that allows us to analyze and drive impact on a community level, **street by street and corner by corner.**

Data has proven the right Core Influencers, when recruited from the right network and provided the right support, will **end street violence.** Investing in the potential of the city's most disruptive and neglected residents creates opportunity and **hope for all.**

Uncornered partners with **organizations across the anti-violence ecosystem**, from prevention and enforcement to **education, training, mental health and crisis response.** **All are critical in ending violence.**

Data updated as of October 2023

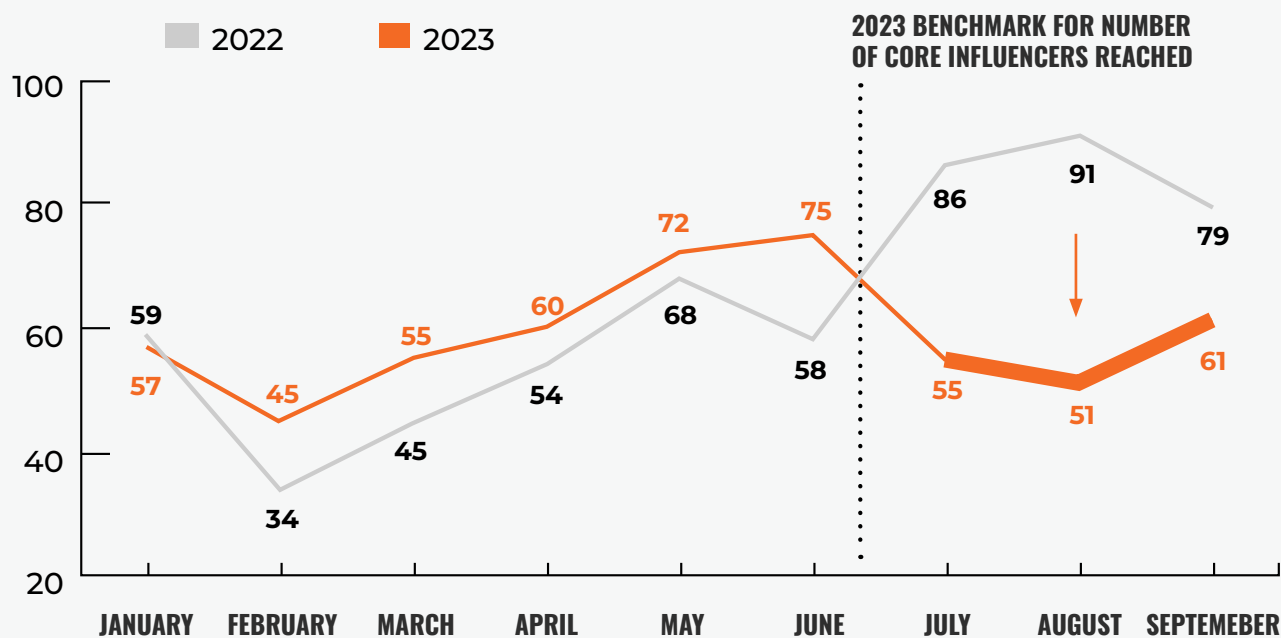

## ENDURING SUCCESS | BOSTON

Founded in Boston in 2016, the Uncornered model goes directly to the Core Influencers of violence and gives them the resources they need to transform the futures of their lives and their cities. The results have been powerful and lasting.

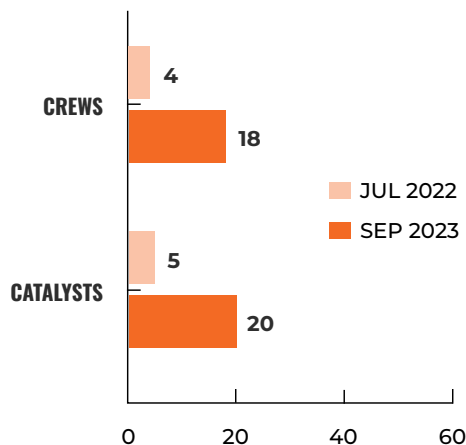

## DRAMATIC REDUCTION IN SHOOTINGS | KANSAS CITY

Following the 3 deadliest years on record in Kansas City, Uncornered Core Influencers paved the way to a drastic 35% reduction in shootings in Q3. ## GROWING IMPACT OF CORE INFLUENCERS | PROVIDENCE

The number of leads, Catalysts and networks has increased by more than 4x, enabling even greater impact across the city.

### CATALYST OUTCOMES: APRIL 1, 2023 – SEPT. 30, 2023

“

“For nearly a decade, Uncornered has had success in transitioning gang-involved youth into post-secondary institutions, which has led to lower recidivism rates, increased educational attainment, improved access to career opportunities, and has led to transformational outcomes for the individuals and their families. I am so inspired and grateful for the work that you do at Uncornered, and we are proud to play a small part in getting it funded.”
